Description of the design _____

2 TO DETERMINE YOUR BELT SIZE

*****PLEASE READ CAREFULLY!*****

Best way for accuracy is by measuring a belt from the tip of the buckle (including the buckle) to the hole most worn. Stitch 4" less than BELT size to allow for leathering. EXAMPLE: 38" BELT - 4" = 34" of needlepoint is needed. 1 1/2" of needlepoint on each end will be covered with leather. Position initials or design inside that area.

SIZE.....I have read the above and understand that I need BELT SIZE.....

If you want to fasten in the middle hole- you must measure from the tip of the buckle to the hole most worn
